Letter from the Editor

Here is our August edition of **FELIS, 2017**. Our feature this month is mainly pictorial, as there has been no major article offered, so instead we show off some of the beautiful cats and kittens from Christernee Cattery, owned by hard-working committee members Peter and Christine Gunczy and two special boys from member Nicolette Gregory.

We have also included the various State regulations regarding microchipping of cats for your information.

We congratulate all winners in the various sections in shows so far this year and thank you all for your participation. The results of the last two Cats NSW shows are shown inside. The sponsors for Felis have continued to provide their welcome ongoing support, for which we are most grateful.

FELIS is your magazine, so it will only continue to be interesting if we can have your own contributions, no matter how small. That includes any photos you have of your Siamese, or of any events such as shows where our Siamese are on the bench (please email **Marion Anstis: frogpole@tpg.com.au**). Short articles about your cats and any news concerning Siamese will always be welcome.

I look forward to receiving your input for our **December** edition. Please send to me by first week of November, 2017.

Member's Story

Bottle fed to Joyce Selby winner!

Peter and Christine Gunczy, Grose Wold, NSW

CHRISTERNEE ILLYRIA

Illyria was born along with her brother Joel in July 2009. We knew after a couple of hours that there was a problem, so we immediately swung into action and started to supplement the tiny babies.

Christine would stay awake for at least 36 hours straight and feed the kittens every two hours while I was at work, then when I got home Christine would sleep for twelve hours while our roles reversed.

These two precious little babies grew stronger everyday. Finally, the day they started eating solids was the day we sighed with relief!

Joel went to a loving home where he now spends his life, while Illyria remained with us for breeding and Showing purposes. To our delight, in both 2010 & 2011 Illyria was named **Joyce Selby winner** at the annual Siamese Cat Society show! After all we had

Above: Illyria being fed. Below: Illyria and Joel made it through!

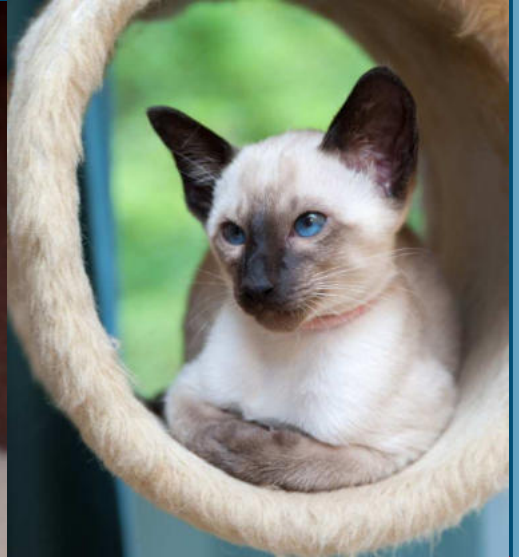

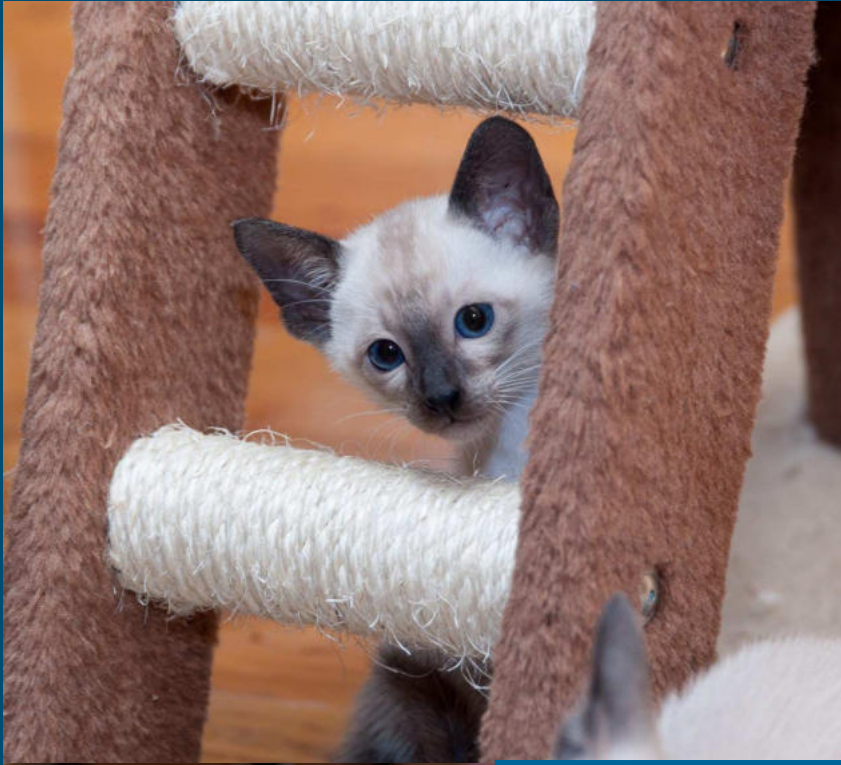

gone through during her upbringing, we were extremely proud of this achievement and even shed a tear. Illyria now spends her days as a beautiful Spay, enjoying life in the usual manner - hogging the bed and helping the other mums raise their babies. Both Joel & Illyria grew up to be super-affectionate cats after such a rough start in life. Following are some examples of our cats and the purebred Siamese kittens we have bred over the years. We hope you will enjoy them, and one day come and visit our cattery.

Meow A Genetic Concert for Cats

by Australian author

Dr Kerry Fowler MSc PhD

'Meow' is a key reference book for cat breeders, owners, judges and veterinarians who are curious about the genetic makeup, DNA testing and diversity of pedigree cat breeds.

Peek inside, and find chapters, tables and a glossary describing what is scientifically known about the genes responsible for the multitude of different coat colours and patterns, hair lengths and compositions, eye colours and structural features that are seen in cats. Enjoy images of a rare russet Burmese kitten whose coat colour dramatically changes during development.

Be challenged by theories about genes such as dilute modifier, O gene, silver inhibitor, wideband and solving the origin of the Ragdoll cat mystery. Understand how to interpret DNA test results for coat colour, pattern and length; what to do when DNA test results do not make sense; the pros and cons of outcrossing cat breeds; the potential effect of diet and environment on gene activity; the quality control role of cat judges and limitations of breed standards.

'Meow' has been hailed as 'MeWow'. This reference book was launched at the 45th Australian Cat Federation Inc. National Show in June 2017 with ACF President Sandi Gemmell and GCCFV Inc. Show Manager Lesley Freemann. 'Meow' has been eagerly embraced by 'thrilled' cat fanciers in Australia, Denmark, Japan, New Zealand, South Africa, The Netherlands, UK and US. The author, Dr Kerry Fowler MSc PhD has combined her scientific career in biomedical genetics and experience judging all cat breeds in Australia and New Zealand to 'have made a lot of people happy with this wonderful book' including those who have been 'over the moon to receive it'.

Microchipping Regulations State by State, R.S.P.C.A.

State	Compulsory Microchipping Legislation?
ACT	Yes Section 84 of the <i>Domestic Animals Act 2000</i> and Regulation 7 of the <i>Domestic Animals Regulation 2001</i> requires microchipping of cats and dogs prior to sale/transfer and by 12 weeks of age. Regulations 7 and 9 of the <i>Domestic Animals Regulation 2001</i> outline what information must be recorded in the microchip database.
NSW	Yes Section 8 of the <i>Companion Animals Act 1998</i> requires microchipping of cats and dogs prior to sale/transfer and by 12 weeks of age. Regulation 8 of the <i>Companion Animals Regulation 2008</i> outlines what information must be recorded in the microchip database.
NT	No. However all cats over three (3) months of age that have been in Darwin for one month must be registered annually. To register your cat you must agree to have your cat microchipped, to adequately contain your cat at all times and to apply for a licence if you intend to keep more than two cats.
QLD	Yes Sections 13 and 14 of the <i>Animal Management (Cats and Dogs) Act 2008</i> requires microchipping of cats and dogs prior to sale/transfer and prior to reaching 12 weeks of age. Schedule 2 of the <i>Animal Management (Cats and Dogs) Act 2008</i> and Schedule 4 of the <i>Animal Management (Cats and Dogs) Regulation 2009</i> outline what information must be recorded in the microchip database.
SA	No. However proposed draft legislation includes a new requirement for all dogs and cats to be microchipped by a prescribed age (proposed to be 3 months of age).
TAS	Yes Section 15A of the Dog Control Act 2000 requires microchipping of dogs by 6 months of age. Part 3 of the Cat Management Act 2009 requires microchipping of cats by 6 months of age.
VIC	Yes Section 10C of the <i>Domestic Animals Act 1994</i> requires cats and dogs to be microchipped as a condition of registration (which is compulsory once the animal is 3 months of age). However the requirement to microchip prior to sale/transfer under section 12A only applies to domestic animal businesses. Regulation 12 of the <i>Domestic Animals Regulations 2005</i> outlines what information must be recorded in the microchip database. Section 12A (2) of the Domestic Animals Act 1994 requires an animal's microchip number to be displayed in any advertisement for the animal, but not at the point of sale. If the seller is a 'domestic animal business' the breeder must display the microchip number or the breeder registration number, and the name of the issuing Council.
WA	Yes Microchipping has been introduced for all dogs in WA from the following dates: - From 1 November 2013, dogs must be microchipped when they are registered for the first time or when a change of ownership occurs. - By 30 November 2013 all dangerous dogs, which includes restricted breeds, and commercial security dogs, must be microchipped. - By 1 November 2015, all dogs must be microchipped. For cats, Sections 14 and 23 of the Cat Act 2011 requires microchipping of cats prior to transfer/sale and by 6 months of age.

THE JOYCE SELBY AWARD

ITS ORIGIN, ITS ACKNOWLEDGMENT OF PURE SIAMESE AND THE WINNERS.....

For the past thirteen years, The coveted **JOYCE SELBY AWARD** has been a very sought after prize. An acknowledgment that the PURE SIAMESE has not only survived but is recognised for its Perfection and Breeding in our precious Felines. Thanks to **Penny Richardson** for the following record, this edited synopsis on the Joyce Selby Award and its inception:

“In the late 1960’s Joyce Selby purchased a Siamese Kitten for her daughter Carol. They started showing,, Joyce was in love with the Siamese Breed, she then started breeding under “Eslan prefix” right up until her death in 2002. Joyce and her husband were active in SCS for many years, also serving on the committee for some of those years. Joyce’s knowledge of all things SIAMESE was phenomenal and she was willing to pass this knowledge on to new breeders. A couple of these new breeders were Lorraine and Keith Steele (Keilor prefix) and also Penny Richardson. Penny started herbreeding (Trilian prefix) in 1996. With the help of Joyce Selby. Grant also joined Penny as co-owner of the prefix later on. Unfortunately Joyce contracted cancer in 2002, she fought really hard but passed away. Lorraine and Keith were given two Eslan Queens and Keilor Chocolate Thomas, a stud that they had bred that Joyce had owned and Penny and Grant received two Eslan Queens. Both the Richardson’s and the Steele’s were devastated by the loss of Joyce and decided that the Siamese Cat Society should have a perpetual trophy in JOYCE SELBY’S honour.”

Fullcircle Siamese

Reg. Cats NSW CN013

Quality one breed Siamese

Breeder's of quality 'One Breed' Siamese

in the only original 4 colours:

*** Seal * Chocolate * Blue * Lilac**

Fullcircle Siamese is a small but extremely proud Cattery for the producing of good, old-fashioned type Siamese.

All our kittens have been well placed in show and pet homes and are lovingly reared as part of our family. Our cats are renowned for their character and great "puss-onality".

We are also proud owners of our much prized USA Import Lilac Point Stud, a complement to our Seal, Blue, Lilac and Chocolate Point queens.

***** Personal inspections Welcome*****
